

### **Sole Source Justification**

To Whom it may Concern:

High Roller USA is the sole source for the High Roller brand of adult size big wheel trikes. High Roller USA sells direct exclusively through its own website and sister company, Big Wheel Rally, and does not sell through any other channels or retailers.

While there are similar products on the market such as children's big wheels (typically 16inch front wheel), and "drift trikes" for teens (typically 20 inch front wheel), the High Roller is the only trike that is intended primarily for adults with 26 inch front wheel and ability to accommodate riders from 5'0" to 6'10" and up to 300 lbs.

Sincerely,

Matt Armbruster  
Designer, CEO
